ABOUT ME

I'm an IT Consultant experienced in managing complex IT projects, having overseen the full initiative lifecycle from pre-sales through technical delivery and post-production support.

I worked in a young Italian firm, where I coordinated cross-functional teams to ensure we met our strategic objectives. I contributed to designing and implementing scalable, highly reliable architectures by introducing DevOps practices and optimizing the integration between legacy systems and cloud platforms.

With a strong business focus, I facilitate dialogue with stakeholders, translating their needs into concrete, measurable technological solutions.

WORK EXPERIENCE

[03/06/2025 – Current] IT Strategy & Advisor Consultant

Company name: *Vargroup S.p.A.*

Client: *Automobili Lamborghini S.p.A.*

Definition of IT strategies and evolutionary roadmaps aligned with business objectives, based on the analysis of the technological context and oriented towards efficiency and sustainability. Support for digital transformation programs, with interventions on processes, technologies, and change management to improve agility, data culture, and operational capability. Adoption and governance of hybrid/multi-cloud environments of Disaster Recovery through readiness assessment, definition of target architecture, and optimization of efficiency and scalability. Management of IT supplier relationships, ensuring quality, contractual sustainability, and performance control, while reducing the risk of lock-in. Management of complex IT projects with a structured approach, ensuring adherence to timelines, budgets, and objectives, and coordination among stakeholders and delivery teams.

[01/01/2024 – 03/06/2025] IT Project Manager

Company name: *Alpha Team S.R.L.*

Client: *Onduline S.p.A. (acquired by Kingspan S.p.A.)*

Planned, managed, and coordinated IT projects to implement Business Continuity and Disaster Recovery plans and infrastructures, commissioned by Kingspan S.p.A. following its acquisition of the Onduline group. Collaborated with EY consultants to define and document ITSM processes, and to establish robust data protection and access control measures. Conducted a one-year audit of the client's IT infrastructure to assess system resilience, identify vulnerabilities, and recommend targeted improvements. Delivered pre-sales support by analyzing customer requirements and designing bespoke IT solutions to meet their specific operational needs.

Client: *IDROTIRRENA S.C.A.R.L.*

Design and management of Digital Transformation initiatives aimed at modernizing business processes and improving operational efficiency. Pre-sales support through analysis of customer needs and structuring of ad-hoc IT solutions. Collaboration with R&D departments and ERP Business Analysts for requirements definition and technical scoping. Design, installation, and ongoing maintenance of a private cloud infrastructure, developed in coordination with external partners, to enable robust Business Continuity and Disaster Recovery capabilities between the customer's different locations.

[10/01/2022 – 01/01/2024] System Engineer

Company name: *Alpha Team S.R.L.*

Client: *Costanter S.p.A.*

Configuration and lifecycle management of ERP Team System infrastructure environments, ensuring performance, scalability, and alignment with operational requirements.
